

## The Plants and Beauty

The cypress stay there for years  
Just listening with ears.  
How nature's beauty grows  
How everyone knows.

One day it might go away  
Just think that it might stay,  
Magnolias on the trees  
Go like one, two, three.

Many autumn leaves  
Eventually fall off trees  
Yet nature stays  
At least for the rest of my days.

Now you might want to take a peek  
At these beautiful antiques.  
Please help save the greenspace  
Cause you'll always have a smile on your face.
